#### **Overview**

Christopher J. Nassetta, President & Chief Executive Officer of Hilton, said, "We continued to see strong results during the third quarter, exceeding our expectations for system-wide RevPAR growth, with growth across all customer segments. We also continue to leverage our industry-leading portfolio of brands to drive further growth of our global network. We believe we have hit an inflection point and expect a meaningful uptick in openings in the fourth quarter with continued positive momentum into next year. With a record number of approvals year-to-date driving the largest pipeline in our history, we are confident in our ability to accelerate net unit growth to 5.5 percent to 6.0 percent next year."

For the three months ended September 30, 2023, system-wide comparable RevPAR increased 6.8 percent compared to the same period in 2022 due to increases in both occupancy and ADR, and management and franchise fee revenues increased 12.3 percent compared to the same period in 2022. #### **Development**

In the third quarter of 2023, Hilton opened 107 new hotels totaling 15,700 rooms and achieved net unit growth of 14,300 rooms. During the quarter, Hilton had two noteworthy brand debuts, celebrating the first Spark by Hilton which opened in Mystic, Connecticut, and the first Tempo by Hilton, which opened in New York Times Square. This momentum of firsts continued into October 2023 with the announcement of the Waldorf Astoria Residences Pompano Beach, the brand's first standalone residential project.

Hilton added 35,500 rooms to the development pipeline during the third quarter, and, as of September 30, 2023, Hilton's development pipeline totaled approximately 3,190 hotels representing 457,300 rooms throughout 119 countries and territories, including 29 countries and territories where Hilton did not have any existing hotels. Additionally, of the rooms in the development pipeline, 223,000 of the rooms were under construction and 257,200 of the rooms were located outside of the U.S.

#### **Balance Sheet and Liquidity**

As of September 30, 2023, Hilton had \$8.8 billion of long-term debt outstanding, excluding the deduction for deferred financing costs and discount, with a weighted average interest rate of 4.57 percent. Excluding all finance lease liabilities and other debt of Hilton's consolidated variable interest entities, Hilton had \$8.6 billion of long-term debt outstanding with a weighted average interest rate of 4.56 percent and no scheduled maturities until May 2025. As of September 30, 2023, no debt amounts were outstanding under Hilton's \$2.0 billion senior secured revolving credit facility, which had an available borrowing capacity of \$1,940 million after considering \$60 million of outstanding letters of credit. Total cash and cash equivalents were \$779 million as of September 30, 2023, including \$81 million of restricted cash and cash equivalents.

During the third quarter of 2023, Hilton repurchased 4.5 million shares of its common stock at a cost of \$684 million and an average price per share of \$151.22. During the nine months ended September 30, 2023, Hilton repurchased 11.0 million shares of its common stock at an average price per share of \$145.16, returning \$1.6 billion of capital to shareholders.

In September 2023, Hilton paid a quarterly cash dividend of \$0.15 per share of common stock, for a total of \$39 million, bringing total dividend payments for the year to \$120 million. In October 2023, Hilton's board of directors authorized a regular quarterly cash dividend of \$0.15 per share of common stock to be paid on or before December 29, 2023 to holders of record of its common stock as of the close of business on November 17, 2023.

### HILTON WORLDWIDE HOLDINGS INC. DEFINITIONS

#### **Trailing Twelve Month Financial Information**

This press release includes certain unaudited financial information for the trailing twelve months ("TTM") ended September 30, 2023, which is calculated as the nine months ended September 30, 2023 plus the year ended December 31, 2022 less the nine months ended September 30, 2022. This presentation is not in accordance with GAAP. However, the Company believes that this presentation provides useful information to investors regarding its recent financial performance, and it views this presentation of the four most recently completed fiscal quarters as a key measurement period for investors to assess its historical results. In addition, the Company's management uses TTM information to evaluate the Company's financial performance for ongoing planning purposes.

#### Net Income (Loss), Adjusted for Special Items, and Diluted EPS, Adjusted for Special Items

Net income (loss), adjusted for special items, and diluted earnings (loss) per share ("EPS"), adjusted for special items, are not recognized terms under GAAP and should not be considered as alternatives to net income (loss), diluted EPS or other measures of financial performance or liquidity derived in accordance with GAAP. In addition, the Company's definition of net income (loss), adjusted for special items, and diluted EPS, adjusted for special items, may not be comparable to similarly titled measures of other companies.

Net income (loss), adjusted for special items, and diluted EPS, adjusted for special items, are included to assist investors in performing meaningful comparisons of past, present and future operating results and as a means of highlighting the results of the Company's ongoing operations.

#### EBITDA, Adjusted EBITDA, Net Income (Loss) Margin and Adjusted EBITDA Margin

EBITDA, presented herein, reflects net income (loss), excluding interest expense, a provision for income tax benefit (expense) and depreciation and amortization expenses. Adjusted EBITDA, presented herein, is calculated as EBITDA, as previously defined, further adjusted to exclude certain items, including gains, losses, revenues and expenses in connection with: (i) asset dispositions for both consolidated and unconsolidated investments; (ii) foreign currency transactions; (iii) debt restructurings and retirements; (iv) furniture, fixtures and equipment ("FF&E") replacement reserves required under certain lease agreements; (v) share-based compensation; (vi) reorganization, severance, relocation and other expenses; (vii) non-cash impairment; (viii) amortization of contract acquisition costs; (ix) the net effect of our cost reimbursement revenues and expenses included in other revenues and other expenses from managed and franchised properties; and (x) other items.

Net income (loss) margin represents net income (loss) as a percentage of total revenues. Adjusted EBITDA margin represents Adjusted EBITDA as a percentage of total revenues, adjusted to exclude the amortization of contract acquisition costs and other revenues from managed and franchised properties.

The Company believes that EBITDA, Adjusted EBITDA and Adjusted EBITDA margin provide useful information to investors about the Company's financial condition and results of operations for the following reasons: (i) these measures are among the measures used by the Company's management team to evaluate its operating performance and make day-to-day operating decisions and (ii) these measures are frequently used by securities analysts, investors and other interested parties as a common performance measure to compare results or estimate valuations across companies in the industry. Additionally, these measures exclude certain items that can vary widely across different industries and among competitors within the Company's industry. For instance, interest expense and income taxes are dependent on company specifics, including, among other things, capital structure and operating jurisdictions, respectively, and, therefore, could vary significantly across companies. Depreciation and amortization expenses, as well as amortization of contract acquisition costs, are dependent upon company policies, including the method of acquiring and depreciating assets and the useful lives that are assigned to those depreciating or amortizing assets for accounting purposes. For Adjusted EBITDA, the Company also excludes items such as: (i) FF&E replacement reserves for leased hotels to be consistent with the treatment of capital expenditures for property and equipment, where depreciation of such capitalized assets is reported within depreciation and amortization expenses; (ii) share-based compensation, as this could vary widely among companies due to the different plans in place and the usage of them; and (iii) other items that are not reflective of the Company's operating performance, such as amounts related to debt restructurings and debt retirements and reorganization and related severance costs, to enhance period-over-period comparisons of the Company's ongoing operations. Further, Adjusted EBITDA excludes the net effect of the Company's cost reimbursement revenues and expenses, as the Company contractually does not operate the related programs to generate a profit over the terms of the respective contracts. The direct reimbursements from hotel owners are typically reimbursed as the costs are incurred and have no net effect on net income (loss). The fees the Company recognizes related to the indirect reimbursements may be recognized before or after the related expenses are incurred, causing timing differences between the costs incurred and the related reimbursement from hotel owners, with the net effect impacting net income (loss) in the reporting period. However, the expenses incurred related to the indirect reimbursements are expected to equal the revenues earned from the indirect reimbursements over time, such that over time there is neither a positive nor negative impact on the Company's results.

EBITDA, Adjusted EBITDA and Adjusted EBITDA margin are not recognized terms under GAAP and should not be considered as alternatives, either in isolation or as a substitute, for net income (loss), net income (loss) margin or other measures of financial performance or liquidity, including cash flows, derived in accordance with GAAP. Further, EBITDA, Adjusted EBITDA and Adjusted EBITDA margin have limitations as analytical tools, may not be comparable to similarly titled measures of other companies and should not be considered as other methods of analyzing the Company's results as reported under GAAP.

#### Net Debt, Long-Term Debt to Net Income Ratio and Net Debt to Adjusted EBITDA Ratio

Long-term debt to net income ratio is calculated as the ratio of Hilton's long-term debt, including current maturities, to net income. Net debt is calculated as: long-term debt, including current maturities and excluding the deduction for unamortized deferred financing costs and discount; reduced by: (i) cash and cash equivalents and (ii) restricted cash and cash equivalents. Net debt to Adjusted EBITDA ratio is calculated as the ratio of Hilton's net debt to Adjusted EBITDA. Net debt and net debt to Adjusted EBITDA ratio, presented herein, are non-GAAP financial measures that the Company uses to evaluate its financial leverage.

Net debt should not be considered as a substitute to debt presented in accordance with GAAP, and net debt to Adjusted EBITDA ratio should not be considered as an alternative to measures of financial condition derived in accordance with GAAP. Net debt and net debt to Adjusted EBITDA ratio may not be comparable to similarly titled measures of other companies. The Company believes net debt and net debt to Adjusted EBITDA ratio provide useful information about its indebtedness to investors as they are frequently used by securities analysts, investors and other interested parties to compare the indebtedness between companies.

#### Comparable Hotels

The Company defines comparable hotels as those that: (i) were active and operating in the Company's system for at least one full calendar year as of the end of the current period, and open January 1st of the previous year; (ii) have not undergone a change in brand or ownership type during the current or comparable periods reported; and (iii) have not undergone large-scale capital projects, sustained substantial property damage, encountered business interruption or for which comparable results were not available. Of the 7,312 hotels in the Company's system as of September 30, 2023, 5,964 hotels were classified as comparable hotels. The 1,348 non-comparable hotels as of September 30, 2023 included 346 hotels, or less than five percent of the total hotels in the Company's system, that were removed from the comparable group during the last twelve months because they underwent large-scale capital projects, sustained substantial property damage, encountered business interruption or comparable results were otherwise not available.

#### Occupancy

Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels for a given period. Occupancy measures the utilization of available capacity at a hotel or group of hotels. Management uses occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help management determine achievable Average Daily Rate ("ADR") pricing levels as demand for hotel rooms increases or decreases.

#### <u>ADR</u>

ADR represents hotel room revenue divided by the total number of room nights sold for a given period. ADR measures the average room price attained by a hotel, and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in the industry, and management uses ADR to assess pricing levels that the Company is able to generate by type of customer, as changes in rates charged to customers have different effects on overall revenues and incremental profitability than changes in occupancy, as described above.

#### Revenue per Available Room ("RevPAR")

RevPAR is calculated by dividing hotel room revenue by the total number of room nights available to guests for a given period. Management considers RevPAR to be a meaningful indicator of the Company's performance as it provides a metric correlated to two primary and key drivers of operations at a hotel or group of hotels, as previously described: occupancy and ADR. RevPAR is also a useful indicator in measuring performance over comparable periods for comparable hotels.

References to occupancy, ADR and RevPAR throughout this press release are presented on a comparable basis, based on the comparable hotels as of September 30, 2023, and references to ADR and RevPAR are presented on a currency neutral basis, unless otherwise noted. As such, comparisons of these hotel operating statistics for the three and nine months ended September 30, 2023 and 2022 or 2019 use the foreign currency exchange rates used to translate the results of the Company's foreign operations within its unaudited condensed consolidated financial statements for the three and nine months ended September 30, 2023, respectively.
