## Hilton Reports First Quarter Results

MCLEAN, VA (April 24, 2024) - Hilton Worldwide Holdings Inc. ("Hilton," "the Company," "we," "us" or "our") (NYSE: HLT) today reported its first quarter 2024 results. Highlights include:

- Diluted EPS was \$1.04 for the first quarter, and diluted EPS, adjusted for special items, was \$1.53
- Net income was \$268 million for the first quarter
- Adjusted EBITDA was \$750 million for the first quarter
- System-wide comparable RevPAR increased 2.0 percent, on a currency neutral basis, for the first quarter compared to the same period in 2023
- Approved 29,800 new rooms for development during the first quarter, bringing Hilton's development pipeline to a record 472,300 rooms as of March 31, 2024, representing growth of 10 percent from March 31, 2023
- Added 16,800 rooms to Hilton's system in the first quarter, resulting in 14,200 net additional rooms for the first quarter, contributing to net unit growth of 5.6 percent from March 31, 2023
- Repurchased 3.4 million shares of Hilton common stock during the first quarter; total capital return, including dividends, was \$701 million for the quarter and \$908 million year to date through April
- Announced the planned acquisition of the Graduate Hotels brand, including the expected addition of approximately 35 franchised hotels to our portfolio in the second quarter
- In April 2024, acquired a controlling financial interest in the Sydel Group, which owns the NoMad brand, marking Hilton's debut in the luxury lifestyle space and providing further luxury expansion opportunities
- In March 2024, issued \$1.0 billion of senior notes consisting of: (i) \$550 million aggregate principal amount of 5.875% Senior Notes due 2029 and (ii) \$450 million aggregate principal amount of 6.125% Senior Notes due 2032
- Full year 2024 system-wide RevPAR is projected to increase between 2.0 percent and 4.0 percent on a comparable and currency neutral basis compared to 2023; full year net income is projected to be between \$1,586 million and \$1,621 million; full year Adjusted EBITDA is projected to be between \$3,375 million and \$3,425 million
- Full year 2024 capital return is projected to be approximately \$3.0 billion

## **Overview**

Christopher J. Nassetta, President & Chief Executive Officer of Hilton, said, "We are pleased to report a strong first quarter with bottom line results meaningfully exceeding our expectations, further demonstrating the power of our resilient, fee-based business model and strong development story. During the first quarter, system-wide RevPAR increased 2.0 percent as renovations, inclement weather and unfavorable holiday shifts weighed on performance more than anticipated. On the development side, we continued to see great momentum across signings, starts and openings. As a result of our record pipeline and the growth pace we've seen to-date, we expect net unit growth of 6.0 percent to 6.5 percent for the full year, excluding the planned acquisition of the Graduate Hotels brand."

For the three months ended March 31, 2024, system-wide comparable RevPAR increased 2.0 percent compared to the same period in 2023 due to increases in both occupancy and ADR, and management and franchise fee revenues increased 14.4 percent compared to the same period in 2023.

For the three months ended March 31, 2024, diluted EPS was \$1.04 and diluted EPS, adjusted for special items, was \$1.53 compared to \$0.77 and \$1.24, respectively, for the three months ended March 31, 2023. Net income and Adjusted EBITDA were \$268 million and \$750 million, respectively, for the three months ended March 31, 2024, compared to \$209 million and \$641 million, respectively, for the three months ended March 31, 2023.

## **Development**

In the first quarter of 2024, Hilton opened 106 hotels, totaling 16,800 rooms, resulting in 14,200 net room additions. During the quarter, Hilton celebrated a number of significant luxury and lifestyle openings including: the grand opening of the Conrad Orlando in Florida, the debut of LXR Hotels & Resorts in Hawaii and the introduction of the Waldorf Astoria and Canopy by Hilton brands to the Seychelles. Furthermore, Hilton debuted the Curio Collection by Hilton brand in Kenya and Motto by Hilton brand in Peru and entered into partnerships with AutoCamp and Small Luxury Hotels of the World ("SLH"), which will provide new elevated lodging experiences to Hilton guests. Hilton also announced the Waldorf Astoria Residences Dubai Downtown, which will be the Company's first standalone residential property outside of the United States. Additionally, during the quarter, Hampton by Hilton celebrated the opening of its 3,000th hotel globally, kicking off a year of milestones and achievements for the brand including its 40th anniversary, entry into its 40th country and its expected groundbreaking entry into its fifth continent, Africa, later this year.

Hilton added 29,800 rooms to the development pipeline during the first quarter, and, as of March 31, 2024, Hilton's development pipeline totaled approximately 3,380 hotels representing 472,300 rooms throughout 119 countries and territories, including 31 countries and territories where Hilton had no existing hotels. Additionally, of the rooms in the development pipeline, 229,700 were under construction and 267,900 were located outside of the U.S.

## **Balance Sheet and Liquidity**

As of March 31, 2024, Hilton had \$10.3 billion of long-term debt outstanding, excluding the deduction for deferred financing costs and discounts, with a weighted average interest rate of 4.89 percent. Excluding all finance lease liabilities and other debt of Hilton's consolidated variable interest entities, Hilton had \$10.1 billion of long-term debt outstanding with a weighted average interest rate of 4.88 percent and no scheduled maturities until May 2025. As of March 31, 2024, no debt amounts were outstanding under Hilton's \$2.0 billion senior secured revolving credit facility (the "Revolving Credit Facility"), which had an available borrowing capacity of \$1,913 million after considering \$87 million of outstanding letters of credit. Total cash and cash equivalents were \$1,420 million as of March 31, 2024, including \$74 million of restricted cash and cash equivalents.

In March 2024, Hilton issued \$550 million aggregate principal amount of 5.875% Senior Notes due 2029 and \$450 million aggregate principal amount of 6.125% Senior Notes due 2032 and used a portion of the net proceeds from the issuances to repay \$200 million borrowed under the Revolving Credit Facility earlier in the first quarter. The remaining proceeds will be used for general corporate purposes, which may include investments and acquisitions.

In March 2024, Hilton paid a quarterly cash dividend of \$0.15 per share of common stock, bringing total dividend payments for the quarter to \$39 million. In April 2024, Hilton's board of directors authorized a regular quarterly cash dividend of \$0.15 per share of common stock to be paid on June 28, 2024 to holders of record of its common stock as of the close of business on May 17, 2024.

During the three months ended March 31, 2024, Hilton repurchased 3.4 million shares of its common stock at an average price per share of \$196.17, for a total of \$662 million, returning \$701 million of capital to shareholders during the quarter including dividends. The number of shares outstanding as of April 19, 2024 was 250.0 million.

## **Outlook**

Share-based metrics in Hilton's outlook include actual share repurchases through the first quarter, but do not include the effect of potential share repurchases thereafter. Additionally, Hilton's outlook does not include the effect of the planned acquisition of Graduate Hotels.

<sup>(1)</sup> Amounts represent the amortization expense related to finite-lived intangible assets that were recorded at fair value in 2007 when the Company became a wholly owned subsidiary of affiliates of Blackstone Inc. The majority of the related assets were fully amortized as of December 31, 2023, some of which became fully amortized during the three months ended December 31, 2023.

<sup>(2)</sup> Amount for the three months ended March 31, 2023 includes losses recognized related to equity and debt financing that Hilton had previously provided to an unconsolidated affiliate with underlying investments in certain hotels that Hilton currently manages or franchises.

<sup>(3)</sup> Amount includes losses on debt guarantees for certain hotels that Hilton manages, which were recognized in other non-operating loss, net.

<sup>(4)</sup> Amount for the three months ended March 31, 2024 primarily relates to transaction costs incurred for acquisitions, which were recognized in general and administrative expenses. Amounts for both periods include net losses (gains) related to certain of Hilton's investments in unconsolidated affiliates, other than the loss included separately in "loss on investments in unconsolidated affiliate," which were recognized in other non-operating income (loss), net.

## HILTON WORLDWIDE HOLDINGS INC. DEFINITIONS

### Trailing Twelve Month Financial Information

This press release includes certain unaudited financial information for the trailing twelve months ("TTM") ended March 31, 2024, which is calculated as the three months ended March 31, 2024 plus the year ended December 31, 2023 less the three months ended March 31, 2023. This presentation is not in accordance with GAAP. However, the Company believes that this presentation provides useful information to investors regarding its recent financial performance, and it views this presentation of the four most recently completed fiscal quarters as a key measurement period for investors to assess its historical results. In addition, the Company's management uses TTM information to evaluate the Company's financial performance for ongoing planning purposes.

### Net Income (Loss), Adjusted for Special Items, and Diluted EPS, Adjusted for Special Items

Net income (loss), adjusted for special items, and diluted earnings (loss) per share ("EPS"), adjusted for special items, are not recognized terms under GAAP and should not be considered as alternatives to net income (loss), diluted EPS or other measures of financial performance or liquidity derived in accordance with GAAP. In addition, the Company's definition of net income (loss), adjusted for special items, and diluted EPS, adjusted for special items, may not be comparable to similarly titled measures of other companies.

Net income (loss), adjusted for special items, and diluted EPS, adjusted for special items, are included to assist investors in performing meaningful comparisons of past, present and future operating results and as a means of highlighting the results of the Company's ongoing operations.

### EBITDA, Adjusted EBITDA, Net Income (Loss) Margin and Adjusted EBITDA Margin

EBITDA reflects net income (loss), excluding interest expense, a provision for income tax benefit (expense) and depreciation and amortization expenses. Adjusted EBITDA is calculated as EBITDA, as previously defined, further adjusted to exclude certain items, including gains, losses, revenues and expenses in connection with: (i) asset dispositions for both consolidated and unconsolidated investments; (ii) foreign currency transactions; (iii) debt restructurings and retirements; (iv) furniture, fixtures and equipment ("FF&E") replacement reserves required under certain lease agreements; (v) share-based compensation; (vi) reorganization, severance, relocation and other expenses; (vii) non-cash impairment; (viii) amortization of contract acquisition costs; (ix) the net effect of our cost reimbursement revenues and expenses included in other revenues and other expenses from managed and franchised properties; and (x) other items.

Net income (loss) margin represents net income (loss) as a percentage of total revenues. Adjusted EBITDA margin represents Adjusted EBITDA as a percentage of total revenues, adjusted to exclude the amortization of contract acquisition costs and other revenues from managed and franchised properties.

We believe that EBITDA and Adjusted EBITDA provide useful information to investors about us and our financial condition and results of operations for the following reasons: (i) these measures are among the measures used by our management team to evaluate our operating performance and make day-to-day operating decisions and (ii) these measures are frequently used by securities analysts, investors and other interested parties as a common performance measure to compare results or estimate valuations across companies in our industry. Additionally, these measures exclude certain items that can vary widely across different industries and among competitors within our industry. For instance, interest expense and income taxes are dependent on company specifics, including, among other things, capital structure and operating jurisdictions, respectively, and, therefore, could vary significantly across companies. Depreciation and amortization expenses, as well as amortization of contract acquisition costs, are dependent upon company policies, including the method of acquiring and depreciating assets and the useful lives that are assigned to those depreciating or amortizing assets for accounting purposes. For Adjusted EBITDA, we also exclude items such as: (i) FF&E replacement reserves for leased hotels to be consistent with the treatment of capital expenditures for property and equipment, where depreciation of such capitalized assets is reported within depreciation and amortization expenses; (ii) share-based compensation, as this could vary widely among companies due to the different plans in place and the usage of them; and (iii) other items that are not reflective of our operating performance, such as amounts related to debt restructurings and debt retirements and reorganization and related severance costs, to enhance period-over-period comparisons of our ongoing operations. Further, Adjusted EBITDA excludes the net effect of our cost reimbursement revenues and expenses, as we contractually do not operate the related programs to generate a profit over the terms of the respective contracts. The direct reimbursements from hotel owners are typically reimbursed as the costs are incurred and have no net effect on net income (loss). The fees we recognize related to the indirect reimbursements may be recognized before or after the related expenses are incurred, causing timing differences between the costs incurred and the related reimbursement from hotel owners, with the net effect impacting net income (loss) in the reporting period. However, the expenses incurred related to the indirect reimbursements are expected to equal the revenues earned from the indirect reimbursements over time, and, therefore, the net effect of our cost reimbursement revenues and expenses is not used by our management team to evaluate our operating performance or make day-to-day operating decisions.

EBITDA, Adjusted EBITDA and Adjusted EBITDA margin are not recognized terms under GAAP and should not be considered as alternatives, either in isolation or as a substitute, for net income (loss), net income (loss) margin or other measures of financial performance or liquidity, including cash flows, derived in accordance with GAAP. Further, EBITDA, Adjusted EBITDA and Adjusted EBITDA margin have limitations as analytical tools, may not be comparable to similarly titled measures of other companies and should not be considered as other methods of analyzing the Company's results as reported under GAAP.

#### Net Debt, Long-Term Debt to Net Income Ratio and Net Debt to Adjusted EBITDA Ratio

Long-term debt to net income ratio is calculated as the ratio of Hilton's long-term debt, including current maturities, to net income. Net debt is calculated as: long-term debt, including current maturities and excluding the deduction for unamortized deferred financing costs and discounts; reduced by: (i) cash and cash equivalents and (ii) restricted cash and cash equivalents. Net debt to Adjusted EBITDA ratio is calculated as the ratio of Hilton's net debt to Adjusted EBITDA. Net debt and net debt to Adjusted EBITDA ratio, presented herein, are non-GAAP financial measures that the Company uses to evaluate its financial leverage.

Net debt should not be considered as a substitute to debt presented in accordance with GAAP, and net debt to Adjusted EBITDA ratio should not be considered as an alternative to measures of financial condition derived in accordance with GAAP. Net debt and net debt to Adjusted EBITDA ratio may not be comparable to similarly titled measures of other companies. The Company believes net debt and net debt to Adjusted EBITDA ratio provide useful information about its indebtedness to investors as they are frequently used by securities analysts, investors and other interested parties to compare the indebtedness between companies.

#### Comparable Hotels

We define our comparable hotels as those that: (i) were active and operating in our system for at least one full calendar year as of the end of the current period, and open January 1st of the previous year; (ii) have not undergone a change in brand or ownership type during the current or comparable periods reported; and (iii) have not undergone large-scale capital projects, sustained substantial property damage, encountered business interruption or for which comparable results were not available. Of the 7,532 hotels in our system as of March 31, 2024, 6,347 hotels were classified as comparable hotels. Our 1,185 non-comparable hotels as of March 31, 2024 included 421 hotels, or less than six percent of the total hotels in our system, that were removed from the comparable group during the last twelve months because they underwent large-scale capital projects, sustained substantial property damage, encountered business interruption or comparable results were otherwise not available.

#### Occupancy

Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels for a given period. Occupancy measures the utilization of available capacity at a hotel or group of hotels. Management uses occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help management determine achievable Average Daily Rate ("ADR") pricing levels as demand for hotel rooms increases or decreases.

#### ADR

ADR represents hotel room revenue divided by the total number of room nights sold for a given period. ADR measures the average room price attained by a hotel, and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in the industry, and we use ADR to assess pricing levels that we are able to generate by type of customer, as changes in rates charged to customers have different effects on overall revenues and incremental profitability than changes in occupancy, as described above.

#### Revenue per Available Room ("RevPAR")

RevPAR is calculated by dividing hotel room revenue by the total number of room nights available to guests for a given period. We consider RevPAR to be a meaningful indicator of our performance as it provides a metric correlated to two primary and key drivers of operations at a hotel or group of hotels, as previously described: occupancy and ADR. RevPAR is also a useful indicator in measuring performance over comparable periods for comparable hotels.

References to occupancy, ADR and RevPAR are presented on a comparable basis, based on the comparable hotels as of March 31, 2024, and references to ADR and RevPAR are presented on a currency neutral basis, unless otherwise noted. As such, comparisons of these hotel operating statistics for the three months ended March 31, 2024 and 2023 use the foreign currency exchange rates used to translate the results of the Company's foreign operations within its unaudited condensed consolidated financial statements for the three months ended March 31, 2024.
